DETAILED ACTION

Allowable Subject Matter

1. Claim 1 is allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record taken as a whole does not show nor suggest the combination of limitations required by the claims. Specifically, the prior art does not appear to show or teach the fold separate (i.e. not overlapping) from the coatings in combination with the other coatings/bead to achieve the surface pressures required by the claim. Given that the coatings of Sugimoto are more for sealing than (harder) to create surface pressures and that Yoshida (e.g. Fig. 5) shows a coating overlapping the fold (in an alternate embodiment), it does not appear one would have the proper teaching/motivation to form the fold and coatings as required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
